2019

A View of Historic Preservation Across the State

Prepared by the
North Carolina State Historic
Preservation Office,
North Carolina Department of
Natural and Cultural Resources

This year's cover photos illustrate the place- making and economic development power of historic tax credit projects to draw businesses, customers, and residents to historic buildings in North Carolina communities.

Cover Photo Top:

The 1896 *Cascade Saloon* in the Downtown Greensboro National Register Historic District was saved in 2017-2018 by a national construction company from imminent collapse for use as their regional office with a \$3.9 million private investment.

Cover Photo Middle:

Lambeth Furniture Company (Thomasville, Davidson County) was a furniture manufacturing complex from 1901 through the 1960s and also known as Thomasville Chair Company. After a \$19.3 million private investment in 2017-2018, the factory is a workforce housing community with 139 apartments with amenities. It held its Grand Opening Ribbon Cutting in February 2019.

Cover Photo Bottom:

The 1922 Classical Revival-style *Hillside Park High School aka James A. Whitted School* was the first high school for African Americans in Durham. It was rehabilitated in 2015-2017 with a private investment cost of \$13.5 million and repurposed as a multi-family and senior housing community with 111 apartments with amenities and a Pre-K education center.

This publication was financed with federal historic preservation funds from the National Park Service, U. S. Department of the Interior. However, the contents and opinions do not necessarily reflect the views or policies of the U. S. Department of the Interior, nor does the mention of trade names or commercial products constitute an endorsement or recommendation by the U. S. Department of the Interior.

Historic Preservation in North Carolina: Outreach, Impact, and Value

How we help North Carolina

Authorized by the National Historic Preservation Act of 1966 ("Act"), the North Carolina State Historic Preservation Office (HPO) is the official state agency for historic preservation in North Carolina. We work in cooperation with the National Park Service and multitudes of private and public partners to accomplish the Act's purposes as well as state statutory mandates.

Our mission To help the state's citizens, private organizations, and public agencies **identify, protect, and enhance North Carolina's historic resources and** communities through a coordinated program of incentives and technical assistance for today and future generations.

Identify The HPO identifies historic places through a comprehensive architectural survey program. Since 1966, over 115,000 historic buildings, neighborhoods, and sites have been identified in North Carolina. They represent over 3,000 listings in the National Register of Historic Places (including more than 77,000 "contributing" resources in over 560 historic districts and over 2,400 individual listings), the nation's official list of buildings, structures, objects, sites, and districts worthy of preservation for their significance in American history, architecture, archaeology, and culture. The National Register **program plays a vital role in the state's economic development** as eligibility for state and federal historic rehabilitation tax credits is limited to listed properties.

Enhance The HPO administers the federal and state historic rehabilitation tax credit programs, redevelopment and reuse incentives that since 1976 have brought \$2.833 billion of private investment into North Carolina communities, boosting local economies and creating construction phase and post-construction permanent jobs while preserving our state's priceless historic character. Historic rehabilitation projects have taken place in **90 of North Carolina's 100 counties.**

North Carolina was #6
in the US in the number
of completed, certified
historic tax credit
projects in the period
FY 2013-2017.

(Source: National Park Annual
Report of the Federal Tax
Incentives, FY 2017.)

From L to R: (1) Heilig-Levine block, circa 1875, downtown Raleigh, a historic rehabilitation tax credit project, representing \$ 13.6 million in private investment; (2) Traditional building educational workshop in Edenton, funded by a federal CLG grant; (3) Leslie-Taylor House, circa 1879, Vass vicinity, Moore County, NC, individually listed in the National Register of Historic Places.

Protect Under federal and state environmental review responsibilities assigned to us by law, the HPO processes over 3,000 applications a year for federally- and state-aided actions that may affect historic properties and archaeological sites throughout North Carolina. Through an email-based, streamlined submission and review process, the HPO provides timely service to state and local agencies as well as private businesses seeking federal and state assistance.

Local Preservation Program Assistance Over 100 North Carolina communities voluntarily sponsor local historic preservation programs and enjoy HPO technical support and assistance, including regular training for local historic preservation commissioners and staff. 51 of these communities have earned federal Certified Local Government (CLG) status and are eligible for federally-funded preservation grants through the HPO.

Competitive Grant Program 10% of the federal Historic Preservation Fund allocation for North Carolina is reserved for this grant program and returned to North Carolina communities with active local preservation programs. Examples of grant projects include educational workshops, local preservation plans, and National Register nominations (leading to eligibility for the historic rehabilitation tax credit incentives).

Preservation Extension Service The HPO's Restoration and Tax Credits Services Branch provides technical advice for restorations, rehabilitations, and building maintenance to owners of historic buildings at no cost or obligation. A building does not need to be listed in the National Register of Historic Places or have any special historic designation to be eligible for this service. We provide expedited and on-site assistance to historic property owners following natural disasters and fires.

From Murphy to Manteo The HPO ensures statewide service coverage for all 100 North Carolina counties with staff stationed in Raleigh at the State Archives and History Building and in regional offices in Greenville for the 27 easternmost counties and at DCR's Western Office in Asheville for the 25 westernmost counties.

HISTORIC PRESERVATION TAX CREDITS: *Making a Difference in North Carolina*

Historic preservation in NC provides jobs, bolsters the tax base, and utilizes existing **buildings and infrastructure while preserving the state's priceless historic character.**

Rehabilitation of North Carolina's historic buildings increased dramatically following the 1998 expansion of the state tax credit for historic structure rehabilitation. Since 1998, under the new state credits that also enhanced the existing federal credit, 3,120 rehabilitation projects of income-producing and non-income-producing properties with a total estimated cost expended by private investors of \$2.551 billion have been completed. From the inception of the federal program in 1976 through 1997, 670 projects were completed with \$282.24 million in rehabilitation costs.

Since 1976, rehabilitation tax credits have encouraged \$2.833 billion of private investment in North Carolina's historic buildings.

Historic preservation creates jobs, generates income, and stimulates tax revenue in North Carolina.

North Carolina has been one of 35 states (of 43 with a state income tax) that offers the "open to all" incentive of a state piggyback historic tax credit in addition to the federal credit. North Carolina was #6 in the nation in the number of completed historic rehabilitation tax credit projects for federal fiscal years 2013-2017. (National Park Service, *FY 2017 Annual Report of the Federal Tax Incentives for Rehabilitating Historic Buildings.*)

From 1978 to 2017 nationwide, \$144.6 billion in historic tax credit related rehabilitation investment (adjusted for inflation) created 2.548 million jobs and \$158.1 billion in GDP, 30% in the construction sector. (National Park Service, *Annual Report on the Economic Impact of the Federal Historic Tax Credit for FY 2017.*) Likewise, the federal tax credits remained a strong catalyst for job creation and economic growth in older communities.

Reuse of North Carolina's existing structures supports both historic preservation and environmental sustainability principles and makes good economic sense.

In addition to the powerful economic benefits of historic preservation, the historic rehabilitation tax credits encourage the reuse of existing buildings, reducing the need to **expand public services and infrastructure and thereby saving taxpayers' dollars.** Historic structures such as schools, textile mills, and tobacco warehouses continue to be reclaimed for housing, retail, and office uses.

The federal and North Carolina rehabilitation tax credits help citizens preserve and care for their communities. With the aid of the historic tax credits, historic preservation serves to return a sense of pride and optimism to communities large and small, rural and urban across the state.

Entire neighborhoods, towns, and cities benefit from these incentives. Historic rehabilitation projects have occurred in 90 of North Carolina's 100 counties.

SPOTLIGHT

RURAL NC

Income-producing historic tax credits yield a wide variety of projects across the state. In the over forty-year history of the program (1976-2018), credits have spurred 179 projects in counties currently designated Tier 1 development areas. These projects include lodging, restaurants, retail, and special event venues, creating local jobs in both construction and small business management.

The Historic Rehabilitation Tax Credit Programs in North Carolina

3,790 Projects
\$2.833 Billion Investment*

The Federal and State Historic Rehabilitation Tax Credit Programs in North Carolina provide jobs and bolster the tax base by revitalizing existing buildings and infrastructure while preserving the state's priceless historic character.

The programs, administered by the State Historic Preservation Office of the North Carolina Department of Natural and Cultural Resources, in conjunction with the National Park Service, encourage the conservation of North Carolina's historic resources. The National Register of Historic Places plays a vital role in the tax credit programs as eligibility is limited to properties listed in the Register.

Carleton House Motor Inn & Restaurant

Rocky Mount, Nash County

Opened April 2, 1961, the Rocky Mount *Evening Telegram* declared it featured “most up-to-date ideas in modern motel construction.”

Vacant since 2003, this classic motor inn and restaurant in the Rocky Mount Central City Historic District will become a mid-century style boutique hotel.

Scheduled for completion in 2019 with an estimated private investment rehabilitation cost of \$1.5 million.

New Listing

National Register of Historic Places

ERWIN COMMERCIAL HISTORIC DISTRICT Harnett County

With its 13 brick commercial buildings erected in the early to mid-20th century, the district chronicles Erwin's early history, beginning with its founding in 1903 for Erwin Cotton Mills. A location near the Cape Fear River and the surrounding abundant fields of cotton ensured the growth and development of the town.

Updated Listing National Register of Historic Places

North Carolina Industrial Home for Colored Girls
Efland, Orange County

Efforts to establish the home began in 1919 when prominent educator, Charlotte Hawkins Brown, led a campaign for a needed reformatory for African American girls. The reformatory comprised a 1925 frame cottage and farm and provided academic instruction and training in agricultural and domestic skills.

The reformatory was one of ten such institutions for African American girls in the country and the only one in the state. Despite a need for such a facility, the home struggled with funding and administrative challenges until it closed in 1939.

R.J. Reynolds Bailey Power Station

Winston-Salem

Bailey Brothers Tobacco Plant power plant used by R.J. Reynolds Tobacco Company from 1924; latest historic project in downtown Innovation Quarter. Rehabilitated 2014-2018 as a vibrant community of office, tech, retail, restaurant, brewery, entertainment, and event space; private investment of \$30 million.

New Listing National Register of Historic Places

Lincoln Heights School Wilkesboro vicinity

Built in 1924, this school is historically significant for its association with the education of African American children across a four-county region. The original building, constructed with financial assistance from the Julius Rosenwald Fund, was expanded in 1926 and 1950. Additional buildings, including a combination agricultural shop and cafeteria, high school building, and gymnasium, were built between 1956 and 1963 across the roughly nine-acre campus. The complex was in use until 1968, when Wilkes County schools were integrated. Lincoln Heights School is also significant as an intact example of a six-teacher Rosenwald School.

Spencer's, Inc. (Mount Airy Knitting Company)

Mount Airy, Surry County

Established in 1926, produced children's clothing until 2007. This project transformed 4 of the 12 Spencer's buildings into a downtown residential community with 16 loft condominiums. Rehabilitated 2015-2018 with a private investment rehabilitation cost of \$4 million.

Rehabilitated 2016-2017 with a private investment rehabilitation cost of \$604,000.

The Historic Rehabilitation Tax Credit Programs in North Carolina

3,790 Projects
\$2.833 Billion Investment*

The Federal and State Historic Rehabilitation Tax Credit Programs in North Carolina provide jobs and bolster the tax base by revitalizing existing buildings and infrastructure while preserving the state's priceless historic character.

The programs, administered by the State Historic Preservation Office of the North Carolina Department of Natural and Cultural Resources, in conjunction with the National Park Service, encourage the conservation of North Carolina's historic resources. The National Register of Historic Places plays a vital role in the tax credit programs as eligibility is limited to properties listed in the Register.

BEFORE

New Listing National Register of Historic Places

HIGHLAND PARK MILL No. 1
Charlotte, Mecklenburg County

Highland Park Mill No. 1 possesses industrial significance as a major textile mill in Charlotte. Built in 1891, the mill was Charlotte's fifth cotton mill. By 1907 the concern had grown to become the nation's third-largest gingham producer and included two other plants. This industrial complex encompasses a series of interconnected one- and two-story buildings erected from 1891 through 1992.
